SIMPLE.
SERVERLESS.
SECURE.

Secure print, copy, and scan management on the cloud

uniFLOW Online is a scalable and secure cloud-based solution for organizations of all sizes, designed to enhance multifunctional devices' capabilities. The solution aims to optimize business processes while reducing capital spending on costly hardware infrastructure.

With device authentication and every print, scan and copy job tracked, the solution offers security and control to reduce overall business cost.

uniFLOW online

MOBILITY
Empowering Employees, Increasing Productivity

MOBILE PRINT
Regardless of location, users can use their smartphones or tablets to print document securely. Mobile printing is also offered for guest users.

MY PRINT ANYWHERE
Empower users with the convenience to print from the nearest accessible device at anytime.

RESILIENCE ENSURED
To ensure maximum productivity in case of network failure, uniFLOW online supports up to the last 100 cached users' accessibility to the devices.

VIPs can also be configured to ensure no disruption are caused in their daily print requirements under such outage.
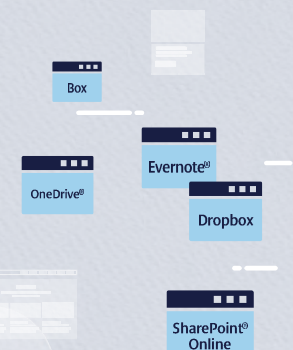

CONNECTIVITY

COST EFFICIENCY
With cloud-based infrastructure, hefty servers cost and maintenance are no longer required. Companies can now capitalize on the scalability of uniFLOW Online to optimize IT resources and increase cost efficiency.

CONNECTED SCAN DESTINATIONS
uniFLOW Online enables direct document scanning to major cloud-based destinations such as Dropbox, Google Drive™, Box, Microsoft OneDrive®/OneDrive® for Business, Evernote®, Microsoft SharePoint® Online and Concur®, upon authentication at the device.

Scan profiles can also be configured by user or group. The lean and intuitive user interface of the scan workflows brings about greater productivity.
SECURITY

SECURE PRINT ENVIRONMENT
uniFLOW Online users are able to print documents securely.

Print jobs are managed by uniFLOW SmartClient within the local company network. All submitted print jobs remain within user's personal secure print queue until user authenticates for release at the device.

The spool file is automatically deleted from a user's PC once it has been printed or following a preset period.

FLEXIBLE AUTHENTICATION OPTIONS
Various authentication options (Card, Pin, Department ID) are made available to enhance user convenience without compromising security.

CONTROL AND REPORTING

TRACK PRINT, SCAN, AND COPY COSTS

uniFLOW Online enables the administrator to allocate relevant costs to individual users, devices and departments by tracking the organization's printing, copying and scanning costs.
CENTRALISED ADMINISTRATION CONTROL

Simplified, single platform allows administrators to easily track, assess and centrally configure all device settings and activities in the cloud.

INFORMATION VISIBILITY

Dashboard furnishes quick updates for administrators to gain overview on devices' usage. Various reports are also available to provide valuable insights on print usages.

With greater information visibility, organisation is able to pinpoint areas where cost can be scaled down and implement appropriate measures to improve cost efficiency.
